

VIT Guide

Student Name: Utkarsh Singh

Registration ID: 26BAC10047

Language: Python

Project type: Basic console based student project

Project Overview

VIT Guide is a menu driven python project which consists of some of the special block places, boys hostel blocks, sports courts, shops, AB1 building info, search function and my favourites.

Main features

1. Special Block: AB Dakshin, Bistro, Mayuri, Gym, Dentist

We can check their menu, make simple order and mark them as favourite.

1. Boys Hostel: Block 1 and Block 2 available with their places

2. Sports Courts: Basketball, Volleyball, Football, Badminton, Tennis

3. Shops: Their location, items with price, simple buying/order system

4. AB1 Building: Teachers Cabin info, Cafes available

5. Search: Search for places, courts, hostels, shops, items

6. My Favourites: View and remove favourite

Python concepts involved

1. Variables

2. Lists and Dictionaries

3. Functions

4. if, elif, else

5. For and While loops

6. input(), int()

7. String lower(), join()

8. isdigit() etc

How to run

1. Install python 3

2. Keep this file name as utkarsh.py

3. Open Command prompt/Terminal in project folder

4. Run command python utkarsh.py

5. Enter your name and you are good to go

Flow Diagram

Start —> Enter Name —> Main Menu —> Select Section —> Use Feature —> Main Menu —> Exit

Files included

1. utkarsh.py – – Main python file

2. README_VIT_Guide_Utkarsh_Singh.md – – Readme file

3. VIT_Guide_Project_Report_Utkarsh_Singh.docx – – Project Report

Student Info

Name: Utkarsh Singh

Registration ID: 26BAC10047

Conclusion

VIT Guide is simple python project which demonstrates list, dictionary, functions, loops, conditionals, user input, validation, search, order system and favourite system.
